**Subject:** Please Respond: ERT assistance at Niagara County May Assessments

Hi Dave and Lyndsey:

How are you both?

As you know, we are planning on conducting assessment work at NFB and HTC in May (May 8-19). Besides the off-site planning involvement from you both, I was hoping to see if you are available to come to the site next month. I believe Lyndsey may be visiting the site at some point during those weeks.

Dave, I am not sure if you are available to be on-site May 8<sup>th</sup> or not. If so, then we can possibly move forward with the new HpGe standard and dewar. If not, I would ask that you be available via phone on May 8<sup>th</sup> to guide Chad in bringing the HpGe back to running condition with existing standard and dewar.

I am requesting the ERT Ludlum 2241 with 3\*3 probe and whatever other equipment goes with it to perform our gamma survey. If available, please ship to my attention next week. Thanks so much!!  
USEPA
